

RISK MANAGEMENT FOR THE CAR WASH INDUSTRY

A water leak through a sunroof, a dashboard damaged while it's being cleaned. Accidental damage will happen when you work on cars. Not only that, car washes that also offer oil change and car repair services create even more liabilities. Make sure your coverage meets your risk, and have your insurance reviewed by our experts.

MEET OUR CAR WASH INDUSTRY EXPERT, LORENA DEWIT

Meet Lorena DeWit. Lorena currently works with several SoCal car wash operations and can offer sound advice and provide safety and HR resources that have helped many of her customers. She has unique solutions to help you save money on your Work Comp insurance while creating more efficiency in your operations.

Many of my customers run family-owned operations. My satisfaction is derived from helping them protect their hard-earned business assets, and deal with employee issues that many of them experience.
