

RISK MANAGEMENT FOR **DISTRIBUTION & LOGISTICS FIRMS**

Distribution & Logistics related businesses continue to deal with a rapidly changing environment driven by the continued growth of ecommerce. Technology and integrations are prime concerns affecting the industry leading to increased cyber security and liability risks. Make sure your coverage meets your risk, and have your insurance reviewed by our experts.

MEET OUR DISTRIBUTION & LOGISTICS INDUSTRY EXPERT, SAM SHARMA

Meet Sam Sharma. Sam help clients understand the complexity of Work Comp, especially the 7219 class code and maintaining compliance with State and Federal laws. In addition, his expertise in helping his customers understand the Experience Modification score results in a better understanding of their current premiums and how they can manage their score in the future.

If you're in the Logistics/Distribution industry, rest assured that PIASC Insurance Services offers a full service solution, including best-in-class insurance products and risk management services. We are always looking for new programs that can bring value to our customers.
