

RISK MANAGEMENT FOR THE GRAPHIC ARTS INDUSTRY

We've been insuring the industry for over 30 years, during which time we've developed value-based programs specifically for the community. From Work Comp to Business Insurance, our packages will exceed your expectations. So have our experts make sure your coverage meets your risk, and have your insurance reviewed by our experts.

MEET OUR GRAPHIC ARTS INDUSTRY EXPERT, CHRISTOPHER BRUINSSLOT

Meet Christopher Bruinsslot. Christopher has been working with the Graphics Arts Industry for the last five years. As the son of a printer he understands the challenges that printers face and their unique needs. He works with several of the largest printers and packagers as well as some of the smaller niche operations in Southern California.

I love the smell of a print shop...I grew up in one. There's nothing like the sound of a large offset press running, or watching the paper come off the press and being perfect stitched. I want to make sure my customers are well protected.
